

Additional info and helpful tips

Set up for the 2nd Violins:

Open the **Ch Orch KSW** and push the key note for your desired articulation. The articulation will stay. (If you want to change it to another articulation during your piece, of course you can)

Then look at the chart starting on **page 2** where you will see which large ensembles you can use with this 2nd violin.

Page 12ff show the list of incompatible layers.

Here is a list of Violins without crescendos

Det Legato Long fast
Det Melody Kontrapoint Legato
Det Melody Kontrapoint

Harmony Movements soft dvorak
LN FF Lead max 2 voice
LN muted
LN ultimate 1 ALL
LN ultimate 3 ALL
LN VelZ NV Full
LN VelZ NV

INFO what will be on the upcoming update:

UPDATE:

Free Looped layers - free download for owners

Free Chamber - There is exactly 2x as many instruments as there are in large ensembles.

As I am working with the demos I find them as absolutely necessarily to include in some of the passages as they are lighter and sometimes better than the large ensembles.

Mod wheel on the MF – MP at full volumes.

All Velocity zones on Mod wheel in their respective volumes.

VIOLINS Ch --> Big Orchestra compatibility report

Ch Orch KSW LN & DET & STACC & LEGATOS are compatible with the following layers:
